

# butterfly EFFECT

**H**ot Aussie act The Butterfly Effect have released a brand new album and are in the midst of a nationwide tour. Sarah Blinco takes five with drummer, Ben Hall...

**What are you most excited about Re your terrific new album, Final Conversation of Kings?** Trumpets and Xylophone in Worlds On Fire!

**Describe the album in 3 words:** That's very difficult...

**Why is it called Final Conversation of Kings?** The title was derived from the Latin phrase "Ultima Regia Regum" which translates to the "final argument of kings". Add a pinch of salt and serve with a side of greens and you get "the final conversation of kings". The 'final conversation' is the battle that takes place when negotiating cannot resolve an issue. This process need not ever be any more physical then 'scissors, paper, rock'. Oh, and dynamite's for cheats.

**What's the biggest lesson you as a group have learned over the past year?**  
A good time on stage is a good show.

**What's your biggest 'rock star' indulgence?** Partying til late and not being able to fall asleep very easily.

**Fave memory on your ride to musical success?** Tomorrow!

**You're inspired by....** My beautiful partner!

**What's the one thing you have to have when you're on tour?** My drum kit.

**You're most looking forward to...** Our tour in July. Especially the Enmore and The Forum; oh shit, and Darwin!
